

香港聲學學會

Hong Kong Institute of Acoustics

HKIOA Professional Diploma on Acoustics

- The course aims to equip the candidates with a systematic knowledge and latest development on applied acoustics with special emphasis on noise mitigation.
- **The Diploma holder satisfies the academic requirement for the HKIOA Membership even if his/her academic background is *not* BEng in related discipline with an acoustics specialization.**
- Arrangement is also being made to count it towards CPD requirement of HKIE and other professional bodies.

Entry requirement	BEng or MSc in any discipline or Higher Diploma with related discipline with some relevant working experience. Candidate may have to satisfy other requirements by the host programs offering modules (see below).
Study modules	Four modules: two compulsory (fundamentals in acoustics, and project) and two electives from a wide range of topics. Each module has around 36 hours of lecture or other forms of contact with lecturer. Typical assessment: combination of written exam and coursework. Exemption: up to two modules depending on prior learning experience.
Duration:	Each module lasts one semester (Sept-Dec or Jan-May) and the four modules can be completed in one to seven years depending on your own schedule.
Venue:	Most modules can be taken at local institutions, e.g. PolyU, HKU, when the candidate is registered as a visiting student for relevant BEng or MSc programs. HKIOA itself also offers technical activities and short courses which would also form elective modules. Details will be announced to registered candidates from time to time.
Fees	The typical fee is around HK\$6000-7500 per module. The total fee for the diploma is around HK\$35,000 including administrative fee HK\$5000. Fees at initial application: HK\$350 (non-refundable) + HK\$2500 (for successful applicants)
Further info and application	Full info: http://hkioa.org/diploma.html email: diploma@hkioa.org Application deadlines: 25 August and 27 Dec each year

Issued by: Education Sub-committee of HKIOA
