1. *Touching Sound*, TSANG Vivien Wai.
2. *Assessment of Lung Diseases in-vivo Using Acoustic Transmission*, CHAN King-chung Kenny.
3. *Prediction of Noise Generation by using Modeled Boltzmann Equation*, KAM Wing Sze Elizabeth.

Venue: Hong Kong Polytechnic University, Room EF305

Time: 7:00-10:00 pm, Tuesday, 18 August 2009

Seven outstanding candidates are shortlisted for the 2009 Meyer Poon Memorial Award (undergraduate and postgraduate categories). Each candidate will give a 15-min seminar followed by questions from and discussions with a panel of assessors. The award ceremony for the winning candidates will be held immediately following a brief panel discussion.

The seminars are free of charge. Refreshment (snacks, sandwiches and drinks) will be provided during the presentation. Both members and non-members are welcome to attend the seminars.

Enquiries should be sent to the undersigned at: who@wal.hk.

Wilson Ho,
Chairman of Activities Sub-committee, HKIOA
