Hong Kong Institute of Acoustics

**Technical Visit to MTR West Island Line Contract No. 705
Kennedy Town Station and Overrun Tunnel
(16 April 2011, Saturday)**

The Institute has organized a technical visit to MTR West Island Line (WIL) in the morning of 16 April 2011 (Saturday). The event is kindly supported by the Gammon Construction Limited.

WIL is an extension of the MTR Island Line, as well as a community railway that runs below densely populated areas of the Western District. Construction of WIL commenced in July 2009 and is expected to complete in 2014. During the visit, engineers from the Gammon Construction Limited will provide an update on the current construction status and share their experiences in noise mitigation measures that are being implemented during the construction stage of the project.

The visit is free-of-charge for members of the Hong Kong Institute of Acoustics. The total number of participants is limited to 20 for this event. Registration is accepted on a first-come-first-served basis and priority will be given to members of the Institute.

If interested, please complete your online registration by **8 April 2011 (Friday)**. Confirmation and event details will be issued to the accepted participants.
