

ABOUT THE EVENT

Ms. Paula DiPerna will share with us her insights on trends in green finance, especially the increasingly critical role of ESG data and data management in corporate governance and global trends driving shifts of capital from high carbon to low carbon, and how this convergence will lead to growth in jobs in the professional green jobs sector, with an exciting demand for varied skill sets.

Business Environment
Council
Kowloon Tong, HK.

GREEN JOBS MATTER: HOW AND WHY

HKIQEP 1st
CPD Event

ABOUT THE SPEAKER

**Paula
DiPerna**

Ms. DiPerna is a strategic global environmental and philanthropic policy advisor, and author, with a special interest in environmental finance. She is currently a Special Advisor to CDP (formerly the Carbon Disclosure Project), and is a Visiting Fellow at Civic Exchange in Hong Kong. She is also a frequent public speaker, author of numerous books and articles and currently writes on environmental finance for Hong Kong based “Benchmark” and www.wealthasia.net.

Ms. DiPerna served formerly as President of the International division of the Chicago Climate Exchange (CCX), the world’s first cap-and-trade system covering all six greenhouse gases, which also spearheaded the joint venture that created China’s first carbon market pilot in 2008, Tianjin Climate Exchange (TCX). She also served as President of the Joyce Foundation; and Vice President for International Affairs for the Cousteau Society, whose principal was oceans pioneer Jacques-Yves Cousteau where she also wrote television films and travelled the world.
