Walkie Talkie Walkathon 2019
In Sun Yat Sen Memorial Park on Sunday 8 December 2019

Dear Sponsor,

**Invitation to sponsorship of the 2019 Walkie Talkie Walkathon**

We are pleased to announce that our annual walkathon this year will be scheduled on 8\textsuperscript{th} December 2019 in Sun Yat Sen Memorial Park. Your esteemed organization is cordially invited to participate in and support the event. Since 2010, the Charity Walk has been our major annual fundraising activity. The walk aims to raise public awareness of the service gap of speech delay in the community, as well as to raise funds to support our core services in providing professional speech therapy to the needy children from low income families and to fulfill our mission of working in partnership with parents.

Your generous sponsorship and support will contribute greatly in making our fundraising successful and enable us to serve more deprived children in our community.

Benji’s Centre is currently providing services to 270 children, 150 children from Sham Shui Po Centre and 120 children from Shatin Centre, however, there remains 80 more children on the waiting list. Since establishment, Benji’s Centre has served over 3,400 children with special needs in speech and language training. Among them, 90\% is on fee remission while 10\% pays less than one-third of the tuition fees as to the market rate of private service.

We sincerely seek your support to participate in this year’s Walkathon through one or more of the following ways:
1. Be the Corporate Sponsor of the event
2. Join the Walk by forming a team of 10 or more
3. Advocate the event and solicit support for Benji’s Centre

Enclosed please find the application and sponsorship forms for the event. We earnestly look forward to your positive response to help making this year’s Walkathon the seventh successful annual event for the Centre. Should you require any further information, our colleague Custanly Kwan or Joanna Tung at 2728 8830 would be more than happy to help.

Yours sincerely,
Benji’s Centre
